Eastern North Carolina,
USMC anti-encroachment
partnership thrives through
years of cooperation

CPL. TYLER J. BOLKEN
MCAS CHERRY POINT

Editor's note: This article is the third in a series that explains the many facets of MCAS Cherry Point and its role in supporting the warfighter while existing as a responsible member of the Eastern North Carolina community.

They say, "If you build it, they will come." And though that may or may not be true of a baseball diamond in the middle of an Iowa cornfield, it is definitely true of a military base, especially when it is built near now-coveted locations like a coastline.

Cherry Point has been no exception – since the air station's inception in the early 1940s in the middle of woods, marsh and farmland, the area around it has slowly become home to thriving communities.

When Cherry Point was first constructed adjacent to the budding community of Havelock, it probably never occurred to the farmers, fishermen, hunters or other local residents, nor to the Marines who began operating a military air station, that someday they might be jostling for space. And the idea that their proximity to the day-to-day operations of a heavily armed military airport could be hazardous was probably as foreign to them as the invaders the Marines were training to fight in the faraway Pacific.

But over time, as military air stations and civilian airports around the country experienced more and more crowding with the communities that grew up around them, one thing became abundantly clear – it is inherently dangerous for people to build homes and businesses under the flight paths of arriving and departing aircraft.

The challenge for Cherry Point then became: how do you protect those people – not only from our flight operations, but from themselves? Every savvy businessman knows that money flows out the front gate like a swollen river, so building your business and hanging your shingle as close as you can to the source of that river seems like a great idea. The associated aircraft noise and the risk of an aircraft accident seem like far lower priorities – but not to the military and city officials who see the need to protect their citizens.

"The key is to be good stewards every day with development that occurs," says Tyler Harris, the Cherry Point community plans and liaison officer, who consults and coordinates with local elected officials, city and county planners and managers daily regarding community issues including new or pending construction that could negatively impact the air station by putting local citizens at unnecessary risk. "Through being vigilant and consistent, public health and safety are our top priorities."

A booming business of warfighting Marine aviation operates inside the air station's fence line, but a thriving civilian community complete with schools, restaurants and other businesses is

Parking a fire truck near a backhoe, firefighters hop out to sneak a peek at what will soon be their new training facility Aug. 24. One jokes about shedding a single tear as they pass the old burnt-out, two-story facility where they devoted countless training hours.

Cherry Point Fire and Emergency Services, Aircraft Rescue and Fire Fighting and Provost Marshal's Office personnel all wait in anticipation for the completion of the new training tower off of Access Road aboard the air station.

The idea for the training tower started in late 2009 because the previous two-story facility was not completely meeting the training needs of the fire crews, said Johnson. Before any plans were drawn, firefighters from the air station sat down together to create a list of features they wanted in the new facility.

Johnson said the tower is primarily in

Cherry Point Fire and Emergency Services firefighters survey the progress of their new training tower here Aug. 24. The new training tower has two additional stories and up-to-date equipment inside to help the firefighters train.

Officer Promotions October 2012 Staff Sergeant Selection Message

Marine Administrative Message 483/12, signed Aug. 30 announces officer promotions for September and projected officer promotions for October.

All officers promoted to the grade of colonel are required to submit current biographical data and photographs to the director of Marine Corps history.

If the respective commanding officer determines that an officer is not mentally, physically, morally or professionally qualified for promotion, the promotion shall not be effected.

Officers considering voluntary retirement should review reference D of the MarAdmin for service obligation prior to acceptance of the promotion.

For more information on this promotion board to include requirements visit <http://bit.ly/officerpromo>.

Marine Administrative Message 487/12 announced the approved selections for promotion to staff sergeant. Monthly promotions will be announced in separate messages. Nearly 1,600 sergeants were approved for promotion to staff sergeant on Aug. 31, following the staff sergeant selection board.

The following IMOS(s) were closed for staff sergeant promotions: 1141, 1171, 1361, 1812, 1833, 2161, 2834, 3051, 3112, 4641, 4821, 5954, 6048, 6073, 6092, 6113, 6122, 6132, 6173, 6213, 6218, 6222, 6223, 6256, 6276, 6313, 6323, 6333, 6336, 6338, 6414, 6434, 6469, 6492 and 7242.

For more information on this message to include a by-name list of selectees, final zone cutoffs and allocations visit <http://bit.ly/E6promotionmessage>.

2012 All-Marine Soccer Trials

Marine Administrative Message 488/12 announced Marines selected to participate in the 2012 All-Marine Men's soccer trial camp, Sept. 4 through Sept. 24 aboard Marine Corps Base Camp Pendleton, Calif.

At the conclusion of the trial camp, selected Marines will compete in the Armed Forces Soccer Championship.

Selected Marines from Cherry Point are:
Cpl. Victor Jemester, Headquarters and Headquarters Squadron
Cpl. Anthony Vizuette, 2nd Marine Logistics Group
Sgt. Jesse Coffey, Marine Aviation Logistics Squadron 14

For more information visit <http://bit.ly/soccertrials>.

Chaplain's Corner.

Inspired by Perseverance

NAVY LT. DEANN C. COLEMAN

MCAS CHERRY POINT

Throughout my Navy career I have attended many different athletic competitive events, however, never a triathlon until Saturday, Aug. 25 here at MCAS Cherry Point. As I stood outside the fence at the Hancock Pool trying to imagine what the swim would look like I could sense excitement in the atmosphere. Voices of wives, husbands, children and parents surrounded me as they wished their loved one well or tried to find them in the sea of people lined up in the five waves of hundreds of adults and children ready to complete the first event in the triathlon, the 400-meter swim.

After the anticipated wait, the race began. One by one the brave participants jumped in the pool swimming four laps down and four laps back. Early in the race one man caught my attention in lane three. I thought he was tired or struggling but then I realized he had a choice of swim different than any other. His tenacity inspired me. I thought to myself, "wow, everyone isn't participating to win; many are participating for fun and/or to say they completed a triathlon." It was obvious this gentleman was not the best swimmer in the pool. Many participants, men, women and children passed him. He didn't seem to get frustrated although I couldn't really interpret his emotions. I was very proud of him because he didn't give up and he didn't allow the stronger and faster performance of others deter him. He kept his pace and swam from lap one to lap eight and his toughness was reflected in his completion of the swim using the side stroke the entire time. I don't know if he switched sides or swam on the same side the entire event, but I do know he started, he completed his eight laps and he finished successfully.

When he exited the pool he was received by clapping and many congratulatory remarks, consistent with each swimmer. Hopefully he was listening and maybe heard in a distance "great job, congratulations" at least from one voice which was mine. I was so excited that I stayed for the entire triathlon which was not my initial intent. I was compelled to experience more of this positive energy. The children were amazing! The men and women old enough to be my older siblings were remarkable! All the individual participants and teams were very courageous!

I want to say thank you to each participant for inspiring so many of us who may have been too timid to participate or too afraid to fail. Some took a chance while others prepared for this event, either way I was proud to say to those who crossed the finished line, "good job!" I ran three miles later that day praying that soon I would be able to participate in events like this. I thought about the young man who swam the side stroke, the family team of a mom who swam, a father who rode the 10 mile bike ride and the young boy with one arm amputated who successfully completed the three mile run.

Every day someone is watching us and although we may not be doing something this great we have an opportunity to encourage someone and inspire them to be better. There are other opposing approaches! What will you choose? Encourage? Empower? Tear down or destroy?

It is my prayer that we seek to inspire and make one another better! May Almighty God bless us with the strength we need to maintain a positive attitude to inspire others every day.

Amen.

Maj. Joseph Bachmann, F-35B Lightning II pilot, touches down after completing the 200th combined Air Force and Marine Corps variant F-35 sortie at Eglin Air Force Base, Fla., Aug. 24.

F-35 Reaches Sortie Milestone Achieves 200th flight

AIR FORCE MAJ. KAREN ROGANOV

33RD FIGHTER WING PUBLIC AFFAIRS

EGLIN AIR FORCE BASE, Fla. – In a sign the Lightning II program is progressing forward, Maj. Joseph Bachmann, a pilot with Marine Fighter Attack Training Squadron 501, completed the 33rd Fighter Wing's 200th combined Air Force A variant and Marine Corps B variant F-35 sortie here, Aug. 24.

Bachmann's flight comes 44 days after the wing accomplished its 100th F-35 sortie on July 11, 2012.

The 33rd Fighter Wing completed sorties 101 to 200 in about a third of the time it took to complete flights one to 100.

The first F-35 flight at Eglin AFB took place March 6.

There are 19 joint strike fighters at Eglin as the fleet continues to grow and the team presses forward to train more instructor pilots and develop maintainer courses.

The F-35 incorporates a wide range of new technologies for stealth, multi-mission capabilities, and sustainability.

Corporals carry on Marine Corps legacy

REMEMBER TO RECYCLE

Cherry Point Corporals Leadership Class 274-12 draw swords during an introduction to sword manual, Aug. 17. The three-week course is the first Professional Military Education class enlisted Marines attend and focuses on leadership, history and tradition. The students graduated yesterday. See story and photos on page A3.

Corporals Leadership Course: Setting the Standard

Week 3: Carrying on the legacy of leadership

CPL. SANTIAGO G. COLON JR.

MCAS CHERRY POINT

@USMC_SANTCOLON

In the hot morning air the voices of experienced sergeants rang out, motivating and encouraging Marines through a simulated combat environment at Marine Corps Air Station Cherry Point, Aug. 27.

On a physical training field near the Cherry Point headquarters building, a group of Marine corporals dressed in boots and utilities maneuvered their way through the combat fitness test and into the final leg of their leadership course.

For Cherry Point Corporals Leadership Course Class 274-12 this was the most fitting way to start the morning of their last week of the course.

"Conducting a CFT during the course is very important because as Marines and leaders we need to set the example," said Cpl. Tammy K. Hineline, a combat videographer with Marine Wing Headquarters Squadron 2 and a student of Class 274-12. "The physical training during the course was extremely challenging for everyone."

The last week is geared to be the most challenging but most beneficial because of the academics test and practical application of that knowledge, said Sgt. Lindsey Philpot, an instructor for the course.

"No matter your [military occupational specialty] every Marine is a rifleman," said Philpot. "With that said they need to know and experience combat leadership roles."

After two weeks of classes and discussions, it was time for the Marines to get hands-on and practice what they learned.

They drew fire sketch plans, conducted land navigation exercises and wrote a five-paragraph order, a precisely detailed combat plan for a unit of Marines.

The Marines were given a scenario and basic information, and were required to come up with a plan to engage the enemy and accomplish the mission.

For most of the Marines, this was the first time they had written a five-paragraph order, said Gunnery Sgt. Valdez R. Baker, staff noncommissioned officer of the course.

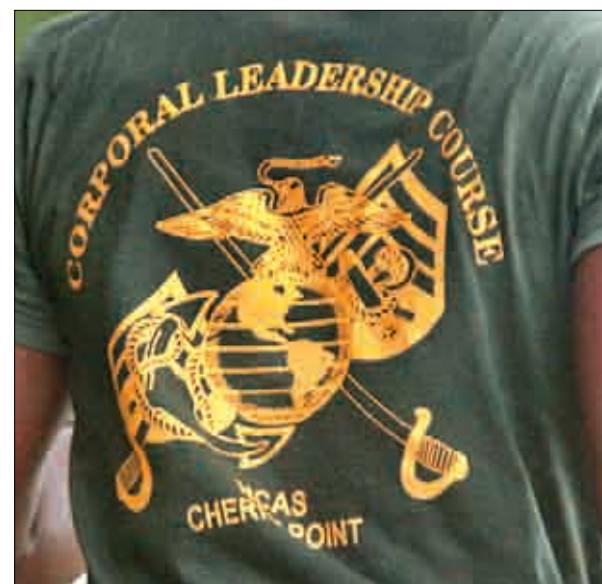

"The purpose of writing one is so they can understand how a commander's intent would directly affect them as squad leaders or platoon sergeants when they deploy," said Baker.

Baker added he had Marines who are with aviation units but have deployed with ground units where skills like the ones

they teach during week three are vital to mission success.

The instructors teach time-tested lessons passed from generation to generation of Marines, to build confidence in their ability to take charge, said Philpot.

"One of my [master gunnery sergeants] told me this principle: 'to be a good leader you must first learn to lead your peers and second, learn how to be led by your peers,'" said Philpot. "During week three that's what they did. They took orders and they gave them."

PHOTOS BY CPL. SANTIAGO G. COLON JR.

Cpl. Dominique A. Patterson, a student with Cherry Point Corporals Leadership Course 274-12, runs during a physical fitness session at the Cherry Point PFT trail, Aug. 29.

"If you can't take orders from someone of your same rank, how can you effectively give orders?"

Philpot said the corporals become more effective leaders after going through the course and that he would have confidence in them to take charge and lead a patrol in a combat environment.

To cement the knowledge and skills they have learned during the course, the class endured a comprehensive examination on the last training day, Aug. 31. The exam tested them

on all material covered throughout the course and required specific answers vice multiple-choice questions.

After passing that barrier the Marines who completed the course were able to enjoy an extended Labor Day weekend, and returned Sept. 5 to conduct a motivation run followed by their graduation ceremony.

“That’s why we do what we do, because those Marines gave their lives so we can carry on their *legacy*. ”

— **Sgt. Lindsey M. Philpot**
Cherry Point Corporals Leadership Course instructor

For Hineline, the course has reignited the fire inside her to take charge as a leader of Marines.

"Corporals course has given me a renewed sense of leadership," Hineline said. "I encourage every corporal to do it."

Philpot said he hoped he passed on his passion for the Marine Corps to the students.

"After the Marines gave their toasts during mess night, I took them aside and asked them if they knew what they were toasting to," said Philpot. "Do you know what happened? Do you know the significance of toasting to the Marines of World War I or Vietnam?"

"I do this because I want them to pride themselves in knowing their history."

"That's why we do what we do, because those Marines gave their lives so we can carry on their legacy."

2nd MAW Marines support anti-drug effort in Guatemala

CONTRIBUTED

MARINE CORPS FORCES SOUTHERN COMMAND

GUATEMALA CITY, – A team of 200 U.S. Marines began patrolling Guatemala's western coast this week in an unprecedented operation to beat drug traffickers in the Central America region, said an U.S. military spokesman Aug. 29.

Four UH-1N Huey helicopter crews and aircraft from HMLA-467 are part of Detachment Martillo of U.S. Marine Corps Forces South and are participating in Operation Martillo. The detachment conducted a Mission Rehearsal Exercise prior to operations beginning in Guatemala.

Detachment Martillo, under operational control of U.S. Marine Corps Forces, South, is comprised of a number of units from II Marine Expeditionary Force. Operation Martillo is led by Joint-Interagency Task Force-South, of the U.S. Southern Command, and is designed to help stem the flow of narcotics through Central America and its Pacific and Caribbean coasts by denying transnational criminal organizations littorals used for illicit trafficking.

(Above) Staff Sgt. Travis A Jakovcic, a UH-1N Huey crewmember with Marine Light Attack Helicopter Squadron 467 looks back at another crew and aircraft during takeoff.

ENCROACHMENT from page A1

only a stone's throw away. This isn't your run-of-the-mill makeup of small town USA. It calls for a cheek-to-cheek relationship with heavily-armed jets, and heavy-duty airplanes and helicopters.

Worries of encroachment on military operations in eastern North Carolina essentially didn't exist 50 or 60 years ago, explains George Radford, director of the Cherry Point Environmental Affairs Department, whose experience with encroachment and environmental issues here dates back to 1988. But, adds Radford, over time it became clear that solutions were needed to create safety buffers around the air station and its associated outlying airfields.

Solutions include cooperative agreements and legislation that make it easier to avoid the standard pitfalls created by up-and-coming communities surrounding active airfields, all while providing other, more subtle benefits to the community.

"We've used partnerships with the North Carolina Coastal Land Trust and several other environmental organizations with the mission to protect environmental interests," says Radford. Through these relationships, the air station and the Navy have purchased property or protective easements to shield citizens from potential mishaps, all while providing additional protections for the environment.

The blueprint for both parties' encroachment policies centralizes on Cherry Point's Air Installations Compatible Use Zones program, which is an active command effort at Cherry Point to work with local, state, regional, and other federal agencies and community leaders to encourage compatible development of land adjacent to our airfields. These zones are areas where there are high volumes of aviation operations, accident potential zones and noise contours, explains Harris, who manages the AICUZ program here.

Cherry Point has responsibilities reaching far beyond its main complex here – it has outlying airfields, an auxiliary landing field and bombing ranges peppered throughout eastern North Carolina – each of which has its own encroachment challenges. These off-base land purchases and property easements exist amid concentrations of timber, wetlands, farmland and coastlines preserving wildlife for future generations of campers, fishermen and family outings.

It is tempting for landowners to financially capitalize on coastline or high market value property, says Radford, but some landowners have demonstrated that there can be long-lasting mutual benefits from easement agreements between the Marine Corps and members of the community.

"The Guthrie Farm off U.S. Highway 24, they grow Bogue Sound watermelons, they have for years," says Radford of a family that chose to sell restrictive easements for their property instead of selling it for development that would be incompatible with Cherry Point's Bogue Field flight operations. "They had the desire to keep it as a farm into the future, which is definitely compatible with us. It was win-win for both parties."

The easements are aimed at protecting endangered species, rare plants, natural coastal settings, water quality, and, in this example, the Guthries protected a family legacy, while agreeing that residential dwellings and hazardous aviation obstructions like cell phone towers or wind turbines will not be built on these properties. The property owner keeps and farms the land, but sells certain property rights to protect local fliers

as well as the environment.

In areas that are not suitable for purchase, other tools are used to protect the public. Through cooperation with local government, zoning legislation is created to prevent incompatible development and construction in danger zones, again with the goal of protecting the public. Other legislation requires disclosures of real estate proximity within the airfields' noise and accident potential zones, an effort championed by Harris for eight years now, this with the goal of ensuring citizens are aware of the potential risks and of the higher levels of noise associated with military aircraft here. "It's about always being ahead of the game and always working together as we have learned to do for many years," explains Harris.

To anyone who is actually paying attention, Cherry Point, its surrounding training areas and the communities that have grown up around them are all parts of one giant community that must watch out for each other to survive – something that people here figured out a long time ago.

FIRE from page A1

possession of the Cherry Point Fire Department but will be used by the Marines of ARFF, PMO and for combined training operations among all the entities.

"The Marines with Aircraft Rescue and Fire Fighting are extremely excited about the Cherry Point Fire Department's new live-burn building," said Chief Warrant Officer 3 Tina Burt, the airfield emergencies officer with ARFF.

"A few Marines have not conducted live-burn structural training since graduating from the Louis F. Garland Fire Academy at Goodfellow Air Force Base, Texas."

She said completion of the live-burn building will help sustain the Marines' proficiency and will support new training and readiness requirements in structural response and operations required of the ARFF Marines.

The new four-story tower includes added obstacles and up-to-date equipment to keep the emergency crews on their toes.

"The new building also includes an in-set balcony on the second floor to conduct simulated rescues into barracks like the ones on base," added Johnson.

Other additions to the new facility include rappelling stations, forcible entry stations, simulated residential, commercial and industrial scenarios, wall-to-wall anchor points for intervention teams and a reconfigurable self-contained breathing apparatus maze.

"The new facility will also assist in a better working relationship between ARFF and the CPFD, because it will help us recognize and be comfortable with each other's capabilities," said Burt.

The total cost of the new facility is approximately \$320,000. The tower is currently going through its final construction stages of laying concrete and pavement for the parking lot. The facility is scheduled to be completed the first week of September.

FEDS from page A1

corner.

"If you are able to donate year round, it is vital to continue to give back to the community," he said. "This is a year-round need, and it always will be."

Former HMLA-269 commander awarded Bronze Star

Lt. Col. Allen D. Grinalds, the 2nd Marine Aircraft Wing aviation training standardization officer, was awarded the Bronze Star medal by Maj. Gen. Glenn M. Walters, the 2nd MAW commanding general, Aug. 21 for his accomplishments while serving as the Marine Light Attack Helicopter Squadron 269 commanding officer in Afghanistan. Grinalds said the award "belongs to the Marines of the squadron" who accumulated more than 3,100 combat flight hours while executing more than 800 joint tactical air requests, 36 named operations and 63 point-of-injury medical evacuation escorts during the unit's 214 continuous days of 24-hour attack helicopter support. "This is a testament to the Marines of the squadron. They had great attitudes while operating in such a demanding environment," he added. Grinalds' wife Mimi, his four children, his father, Maj. Gen. John S. Grinalds, USMC (Ret.), and his mother Norwood attended the awards presentation.

Testing formation flying qualities provides data on handling characteristics. The F-35B is the variant of the Joint Strike Fighter designed for use by the Marine Corps. The F-35B is capable of short take-offs and vertical landings to enable air power projection from amphibious ships and expeditionary airfields. The F-35B is undergoing test and evaluation at NAS Patuxent River, Md., prior to delivery to the fleet.

CPL. REECE LODDER

Former U.S. Marine Cpl. T.J. Croft (in red), a Vietnam veteran who served with Fox Company, 2nd Battalion, 3rd Marine Regiment, views a military operations on urban terrain (MOUT) training facility during a visit to Marine Corps Training Area Bellows, Hawaii, Aug. 22, 2012. Croft, a native of Omaha, Neb., served in Vietnam as a forward observer from 1966-1967. Nearly half a century since they fought through hell in Vietnam, approximately 30 former 2/3 Marines and their families visited the base to reminisce on their service and render honor to a brother lost in combat, Sgt. Maj. Wayne Hayes. Hayes was killed in action, Feb. 28, 1967, during Operation Prairie II while serving with many of the 2/3 veterans.

The memories never fade: Marines, Vietnam veterans pay tribute to fallen leader

CPL. REECE LODDER

MARINE CORPS BASE HAWAII - KANEHOHE BAY

MARINE CORPS BASE HAWAII

Nearly half a century has passed since the Marines of 2nd Battalion, 3rd Marine Regiment fought through hell in Vietnam. The strains of combat have long imprisoned the vigor of their youth. Bodies have changed and reflexes slowed. Fresh, young faces of earlier days are ripe with weathered character. The men have lived a lifetime beyond war, but their memories remain vivid.

Approximately 30 Vietnam-era 2/3 Marines and their families visited Marine Corps Base Hawaii, Aug. 22, 2012, to reminisce on their service and render honor to a brother lost in combat, Sgt. Maj. Wayne Hayes.

"Coming together like this helps a lot of Marines," said retired Master Sgt. Eddie Wyatt, a Vietnam-era rifleman who served with Fox Company, 2/3. "They've buried emotions for years. They've lived with nightmares. Being able to come out and talk about these has helped them heal ... to release their demons."

Following a warm welcome by 3rd Marine Regiment's commanding officer and sergeant major — Col. Nathan Nastase and Sgt. Maj. Justin Lehew — the salty Marines stepped back into service through a brief at the chapel highlighting the current state of today's Marine Corps.

Besides inspiring a generation of men like him to join the Marine Corps, Lehew said, the Vietnam veterans' experiences were a catalyst for growth and development in

the Corps.

"A lot of the changes and improvements in today's Marine Corps are a reaction to the conditions the Vietnam veterans lived in," said Lehew, a Navy Cross recipient. "They're very proud to see that a lot of the work they did ... what they fought for ... paved the way for the changes made today."

Stepping outside, the veterans were greeted by infantrymen from 3rd Marines. They gawked at modern weaponry and marveled at the advances in combat equipment.

"The new gear is pretty impressive," said Wyatt, a native of Stanley, N.C. "We didn't have any of this in Vietnam. We were still carrying flamethrowers from World War II and Korea!"

A short drive from base brought them to Marine Corps Training Area Bellows in Waimanalo, where they viewed professionally crafted, realistic urban villages used by Marine and Army units during pre-deployment training.

The break for lunch at the base's Anderson Hall Dining Facility hit close to home for many of the Marines. The 'chow hall' is named in memory of Pfc. James Anderson, Jr., a rifleman with Fox Co., 2/3, who many of the veterans served alongside. He died Feb. 28, 1967, in Cam Lo, Vietnam, after jumping on an enemy grenade to save the men around him. They survived and Anderson was posthumously awarded the Medal of Honor, becoming the first African American in Vietnam to receive the nation's highest award for valor.

Despite the solemn memory, the veterans swapped memories of combat chow (individually canned C-rations) and mess duty (formerly a 30-day duty for which low-ranking Marines were selected to help prepare and serve food). Former Sgt. Milton Hoch, a 2/3 radio operator who earned two Purple Heart Medals in Vietnam, marveled at the well-stocked salad bar and a tasty serving of deep-fried okra.

Following a brief visit to the Wounded Warrior Battalion West — Detachment Hawaii barracks, the group mustered at the Rocker Room Staff Noncommissioned Officer Club for appetizers, drinks and the main reason for attendance — to honor their fallen brother Hayes.

While serving as 2/3's battalion sergeant major in Vietnam during Operation Prairie II, Hayes was killed in action, Feb. 28, 1967 — the same day as Anderson. The 39-year-old husband, father and highly decorated war hero left behind his wife and three young children.

The same year, a painting memorializing Hayes was commissioned and placed in 'The Hayes Room' of the Officers Club on Defense Depot Ogden, Utah. Thirty years later, DDO was shut down and the painting disappeared.

Hayes' youngest and only daughter, Deborah Mongiovi, began searching for the painting shortly after. Years proved fruitless until, with help from Joe O'Connor, a Marine who served with her father, she located the painting at the National Museum of the Marine Corps in Quantico, Va.

In front of a crowd of men who served

alongside Hayes, his daughter and Lehew drew a red sheet off the wall to reveal a stunning reproduction of the painting. Mounted next to a letter of remembrance and a shadow box overflowing with Hayes' medals and ribbons, the painting finally found its home ... 45 years after its creation.

"This story is just one more example of 'once a Marine, always a Marine,'" Mongiovi, from Escondido, Calif., told the veterans. "None of you have ever let go of your faith and loyalty to your own. I can't say it will ever be closed, but my circle is a much warmer place than it was without you."

Though only 7 years old at the time of her father's death, Mongiovi said meeting his fellow 2/3 Marines has helped restore many memories of her father. With a pained smile on her face, she remembers the tall, handsome man who "always had a twinkle in his eye when he looked at me."

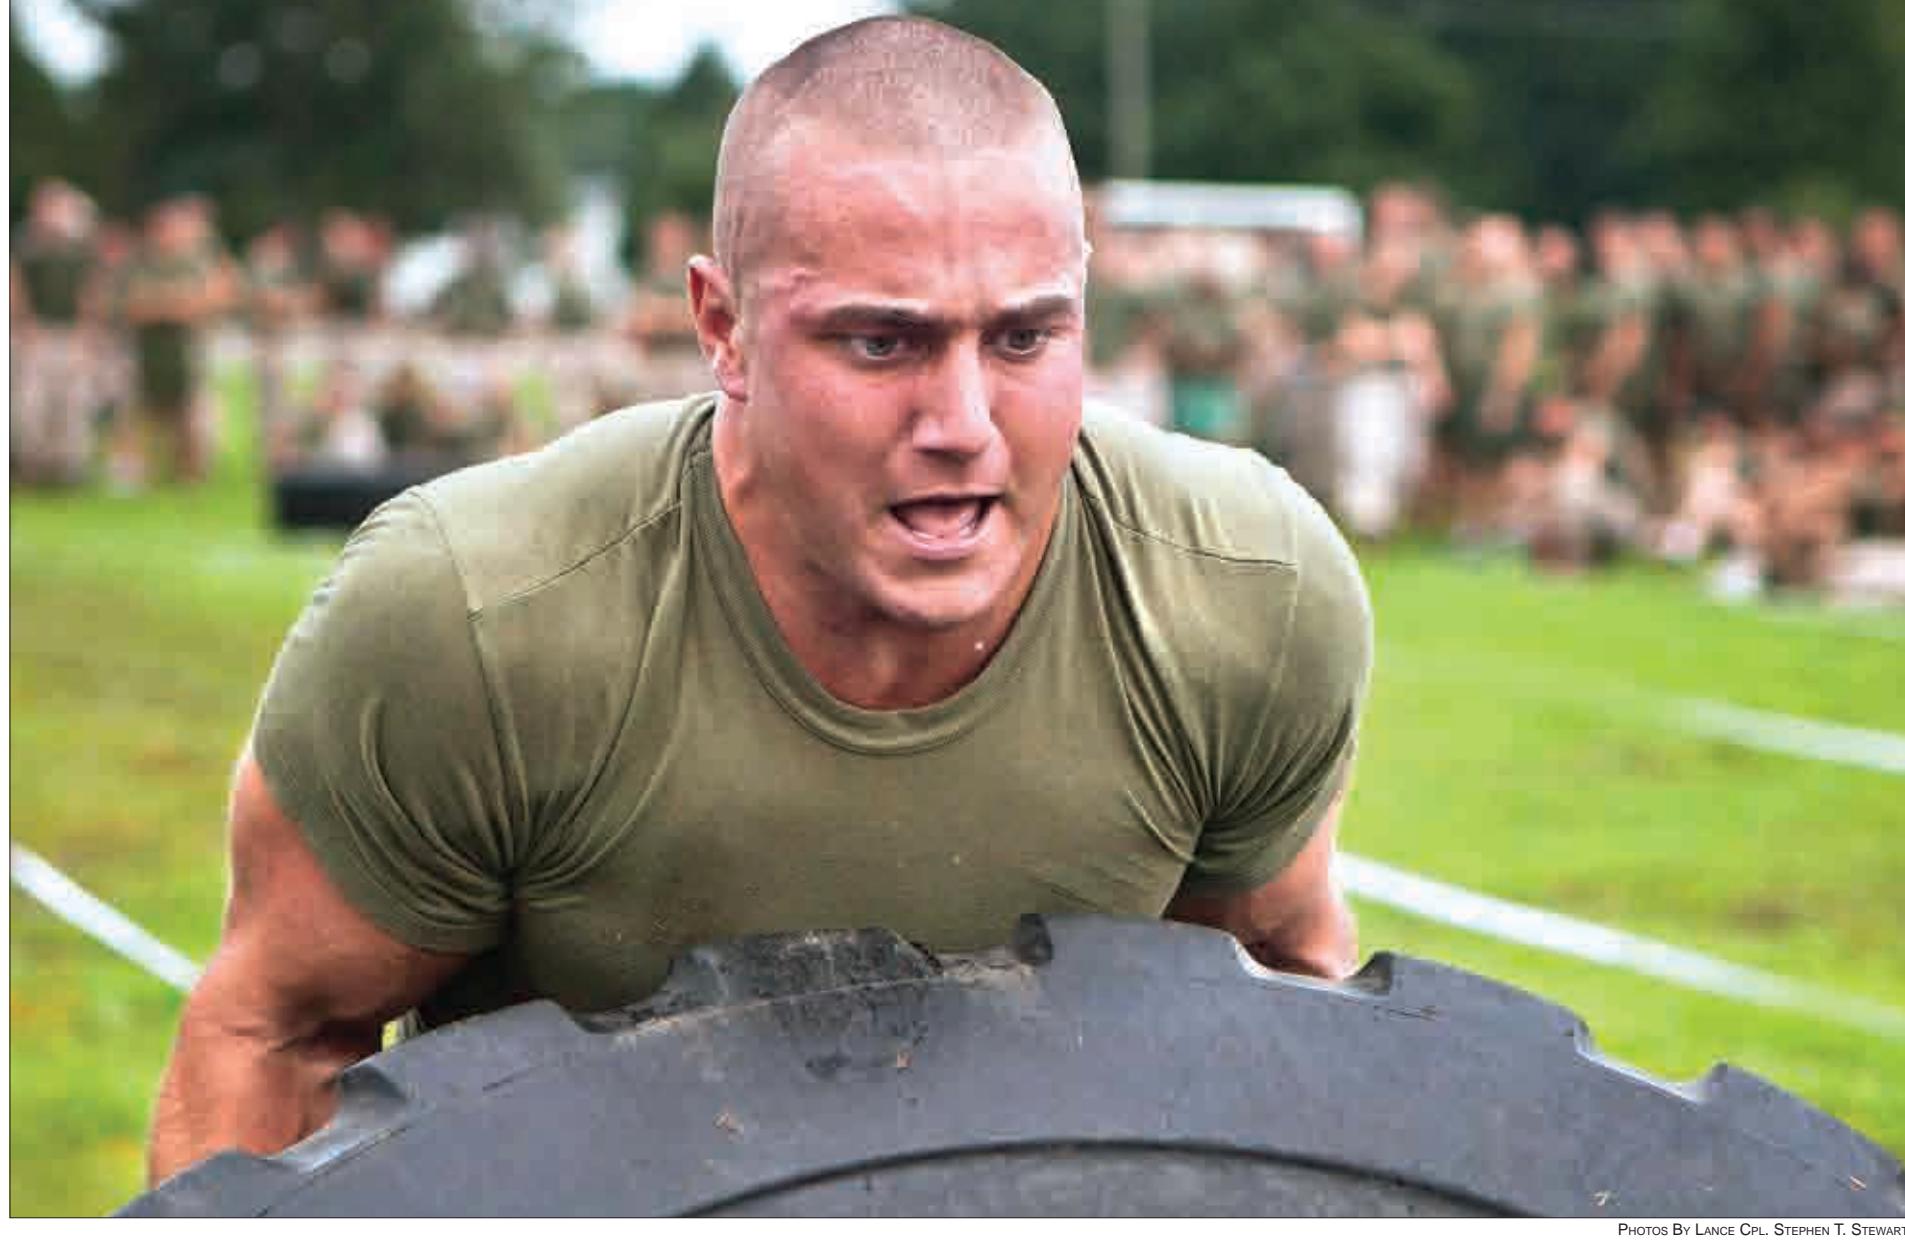

The Vietnam veterans of 2/3 were greeted with scorn when they returned from war. Lehew hoped 3rd Marines' reception properly acknowledged their service and sacrifice.

"The reception Marines get when they return from deployments today is over the top compared to the one these men received when they came home," Lehew said. "But it's never too late to make these Marines feel welcome. The veterans and their families saw the amount of love and concern we had for them today ... and the looks on their faces were unforgettable."

After nearly two years since they last competed, approximately 1,500 Marines with Marine Air Control Group 28 assembled at Cherry Point's softball fields to compete for the Group 28 Trophy Aug. 30.

Marines from each of the six squadrons that fall within the group competed in the event, to include: 2nd Low Altitude Air Defense Battalion, Marine Air Control Squadron 2, Marine Air Support Squadron 1, Marine Tactical Air Command Squadron 28, Marine Wing Communications Squadron 28 and Marine Unmanned Aerial Vehicle Squadron 2.

"Building camaraderie and esprit de corps is important for us," said Col. Peter J. DeVine, the group's commanding officer. "We came out here to do just that."

The first event was a flak jacket relay. A Marine from each squadron donned a flak jacket and sprinted 400 meters around the softball field. As Marines completed the circuit, they transferred the flak jackets to the next relay.

The fields were muddy and wet, making the competition even more challenging for the participants.

"The rain has made the field muddy," said Sgt. Jessy G. Nelson, the training chief for MACG-28. "But that just makes the competition more fun for the Marines."

Next was the M-240B machine gun assembly and disassembly relay. The first Marine in each relay ran 25 meters to the weapon and disassembled it. He then ran back to his team and the next Marine raced to reassemble the weapon.

Round three was a fireman's carry relay. Trying not to fall in the mud, Marines ran 50 meters down field carrying a fellow Marine on their backs then switched places with their partners who sprinted back to the start-

ing point.

The Group 28 Marines were covered in mud and sweat as they trudged through the puddles to the fourth competition, the 200-meter logistics run.

During this event each team distributed multiple ammo cans, water jugs, and a litter with a Marine in it acting as a casualty among its team members and raced 100 meters down the field and back.

At the next stop in their journey to achieving the win, the Marines flipped a 150-pound tire 25 meters.

In the final event, the Humvee push, seven Marines from each team had to push the bulky vehicle 20 meters in a timed event.

Scoring results came back with two teams tied for first place: defending champions 2nd Low Altitude Air Defense Battalion and Marine Air Control Squadron 2.

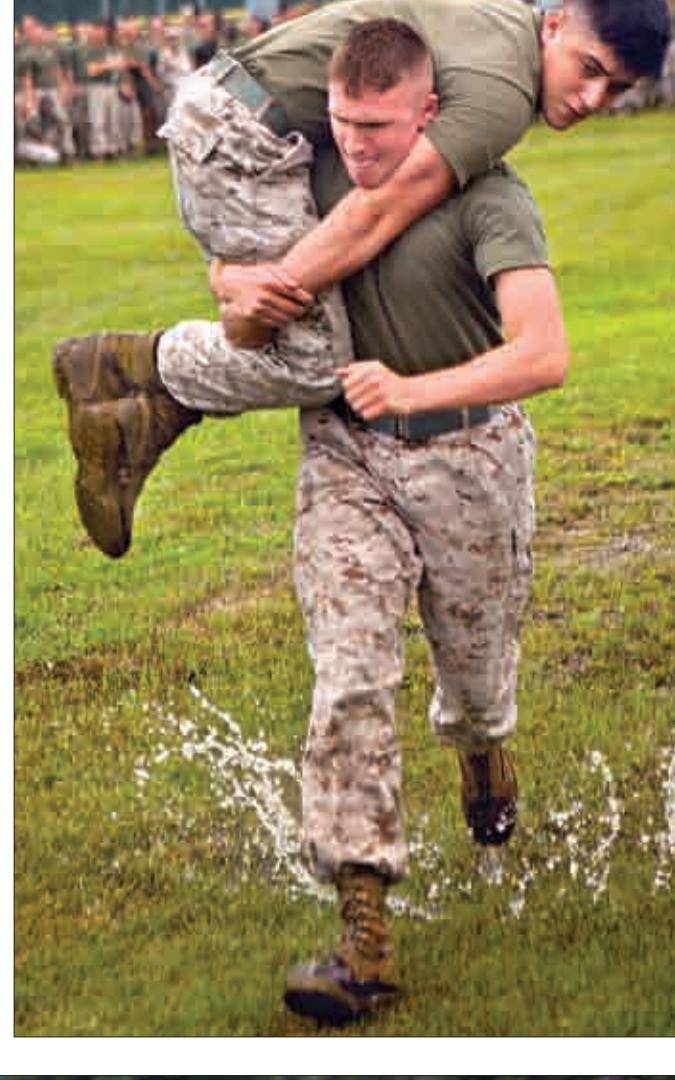

The Marines from both squadrons seemed excited to solve the matter with an old-fashioned tug-of-war contest.

They started in the pushup position, laying face-down in the mud, and waited for the command to jump up and grab the rope.

Both teams fought hard, but in the end MACS-2 pulled their way to victory.

"The Marines had fun and they preformed great," said Sgt. Maj. Lisa K. Nilsson, MACG-28 sergeant major. "They were loud and motivating. All the squadrons did their best and I am proud of the Marines."

MOVIE SYNOPSIS

Madea's Witness Protection - Starring: Tyler Perry, Eugene Levy, Romeo, Dennis Leary, Michael D'Addario. George wakes up to learn that his firm, Lockwise Industries, has been operating a mob-backed Ponzi scheme and that he's been set up as the fall guy. Facing criminal charges and death threats from the mob, George and his entire family are put under witness protection in the safest place that Brian, a federal prosecutor from Atlanta, can think of... His Aunt Madea's house down South.

People Like Us - Starring: Chris Pine, Elizabeth Banks, Michael D'Addario. Sam is a young, fast-paced entrepreneur who finds himself in an unexpected life. In the course of putting his father's estate in order and reconnecting with his estranged family, Sam discovers he has an older sister. As their relationship develops, Sam must re-think everything he thought he knew about this family and take a hard look at his own life choices.

Ice Age: Continental Drift - Starring: Ray Romano, John Leguizamo, Denis Leary, Manny, Diego, and Sid embark upon their greatest adventure after cataclysm sets an entire continent adrift. Separated from the rest of the herd, they use an iceberg as a makeshift ship, which launches them on an epic seafaring quest.

Rio - Starring: the voices of: Jesse Eisenberg, Anne Hathaway, George Lopez. Blu is a colorful macaw who has just arrived in a new, unfamiliar life with his owner and best friend Linda in the small town of Moose Lake, Minnesota. Blu and Linda think he is the last of his kind, but when they learn about another macaw who lives in Rio de Janeiro, they head to the far continent and exotic land to find Jewel, Blu's female counterpart.

Magic Mike - Starring: Channing Tatum, Alex Pettyfer, Matthew McConaughey. Set in the world of male strippers, Mike takes a young dancer called The Kid under his wing and schools him in the fine arts of partying, picking up women, and making easy money.

The Dark Knight Rises - Starring: Christian Bale, Michael Caine, Gary Oldman. It has been eight years since Batman vanished into the night, turned, in that instant, from hero to fugitive. Assuming the blame for the death of his mentor, Dick Grayson, Batman sacrificed everything for what he and Commissioner Gordon both hoped was the greater good.

Drive Safely

CONTRIBUTED ARTICLE

MARINE CORPS SAFETY AND FORCE PROTECTION

Driving is an essential element in our daily routine.

We utilize motor vehicles to commute to and from work, visit family and friends, and at times reach our vacation destinations.

However, for business or pleasure, driving is a task that should not be taken lightly.

The early edition of the National Highway Traffic Safety Administration's 2009 Traffic Safety Facts Annual Report states that of the 5.5 million police reported motor vehicle traffic accidents across America, 30,797 were fatalities, 1.5 million involved injuries, and nearly 4 million involved property damage.

The causal factors associated with these crashes are vast.

MARINE CORPS SAFE DRIVING PROGRAM

Did you know? The Marine Corps experienced 20 Class-A personal motor vehicle mishaps (four-wheel) resulting in 23 fatalities in 2011.

Whether caused by speeding, distracted driving, driving under the influence, or driving while fatigued, most accidents can be avoided by using skills learned in a comprehensive driver education program.

Though vehicle accidents continue to claim the lives of tens of thousands of Americans and injure millions more every year, most accidents are avoidable.

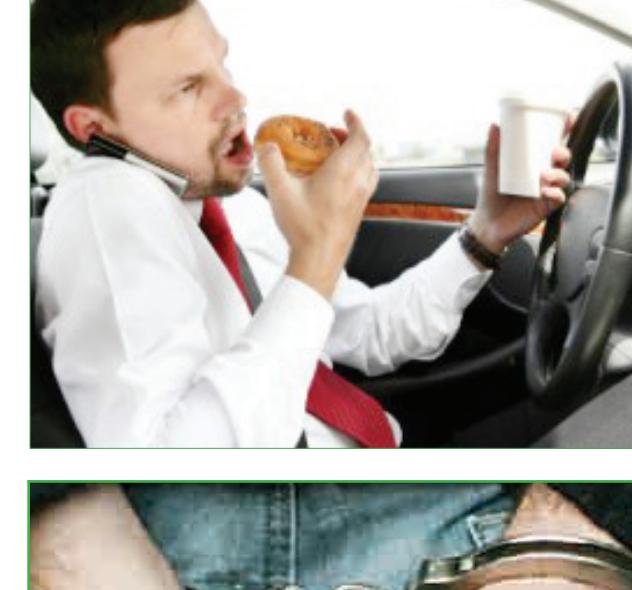

Arming Marines with the correct information and driver education, gives them a greater opportunity to be safe on the road and stay alive.

The Marine Corps driver education courses were developed to improve operator skills and habits by fostering positive driving behavior and attitudes in order to reduce injuries and deaths of Marines due to vehicle mishaps.

For more information about safe driving, visit the CMC safety division webpage at <http://www.marines.mil/unit/safety/Pages/welcome> or call 703-614-1202.

Announcements

► Indicates new announcement

► Horse Sense and Survival Tour

Join a ranger for a half-day walking trip to find the wild horses of Shackleford Banks, during the September Ranger Programs, hosted by the National Parks Service Saturday. Reservations are required.

For more information, call Wouter Ketel at 728-2250.

Carteret Ole Time Family Fun Festival

Hot dog cook-off, battle of the bands, children's games, tug-of-war contest, petting zoo, antique car show and more will be found at the "Ole Time" festival Saturday.

The festival will be held at Camp Albemarle in Newport, N.C., 10 a.m. – 7 p.m.

For more information, call 762-4848 or visit the event website at <http://www.facebook.com/carterethomecoming>.

► National Geographic Crittercam

What do animals do when humans aren't around? Take a rare peek into the private lives of animals through Crittercams, imaging devices worn safely by animals.

Exhibit open through Sept. 16 at the Discovery Place and Charlotte Nature Museum.

For more information, call 704-372-6262 ext. 300 or visit <http://www.discoveryplace.org>

► CFC Kickoff Event

The Cherry Point Combined Federal Campaign will kickoff with an event at the station theater Sept. 13 from 3-7:30 p.m.

There will be activities for all, including a unit competition for the CFC Cup, moonwalks, music, a karaoke competition and a car/bike show. For more information or to sign up visit <http://bit.ly/cfckaraoke>.

► Crystal Coast Grand Prix

Experience two days of speed and excitement as the fastest boats in the world race at the Crystal Coast Grand Prix in Morehead City, N.C., Sept. 14 – 15. Event starts with a meet and greet with the racers and a parade of boats.

For more information, call 269-7682.

Monthly and Weekly Events

Al-Anon Family Group Meeting

Al-Anon family group meetings are held Tuesdays at 8 p.m. for family members and friends of individuals with possible alcohol problems. Meetings are held at Havelock First Baptist Church.

For more information, call 447-8063.

Cycle Classes

Cycle classes are held every Tuesday and Thursday at the Semper Fit Center aboard the air station at 11 and 11:50 a.m.

For more information, call 466-1147.

Water Aerobics

Water aerobics classes are held every Tuesday and Thursday at the Cedar Creek Pool aboard the air station at noon.

For more information, call 466-1147.

Courage to Change

Cherry Point and Havelock Courage to Change support group is for friends

and families of people who suffer from alcoholism. Meetings are held at St. Paul's Lutheran Church in Havelock, Tuesdays at 7 p.m.

For more information, call 241-6155 or 670-6236.

Marine Corps League Meetings

Cherry Point's detachment of the Marine Corps League meets the third Tuesday of each month at Miller's Landing at 7 p.m.

For more information, call 515-1175.

Dart Tournament

Weekly dart tournaments at the Road House restaurant and recreation facility are held Thursdays at 8 p.m.

For more information, call 241-6155 or 466-3044.

Disabled Veterans

Chapter 26 of the Disabled American Veterans meets the third Tuesday of the month at the Senior Center in Havelock at 7 p.m.

For information, contact Ancil Jones at 622-5245.

Domestic Violence Support

Support groups for victims of domestic violence are provided by the Carteret County Domestic Violence Program. The group meetings are held Wednesdays at 6 p.m.

For more information, call 728-3788.

Basic Budgeting

Learn basic financial management skills in room 159 of the Training and Education building. The classes for 2012 will be held Sept. 6, Oct. 11, Nov. 6 and Dec. 6, at 9 a.m. For more information, call 466-4201.

New Bible Study

Modern lessons from ancient combat stories. First and third Thursday, 12 – 1 p.m., at the station chapel. For more information e-mail the station chaplain, at steve.voris@usmc.mil.

Zumba

Zumba exercise classes are held every Monday, Wednesday and Thursday at the Marine Dome aboard the air station at 5 p.m.

For more information, call 466-1147.

This month in Marine Corps History

From the USMC History Division

Sept. 2, 1945 The Japanese officially surrendered to the Allies onboard the battleship Missouri in Tokyo Bay. With Gen. Holland Smith transferred home in July 1945, the senior Marine Corps representative at the historic ceremony was Lt. Gen. Roy S. Geiger, who had succeeded Smith as commanding general, Fleet Marine Force Pacific.

Sept. 8, 1942 On Guadalcanal, the 1st Raider Battalion and the 1st Parachute Battalion, supported by planes of Marine Aircraft Group 23 and two destroyer transports, landed east of Tasimboko, advanced west into the rear of Japanese positions, and carried out a successful raid on a Japanese supply base.

Sept. 27, 1944 The American flag was raised over Peleliu, Palau Islands, at the 1st Marine Division command post. Although the flag raising symbolized that the island was secured, pockets of determined Japanese defenders continued to fight on. As late as April 21, 1947, 27 Japanese holdouts finally surrendered to the American naval commander on the scene.

Lt Dan Band Concert

Back by popular demand, Gary Sinise and the Lt. Dan Band will perform at Marine Corps Base Camp Lejeune Sept. 16, at W.P.T. Hill Field. The event site opens at 2 p.m. Show time is 3 p.m. No tickets necessary.

For more information, call 910-451-0642.

► New Bern Battle of the Bands

Twin Rivers YMCA, New Bern Parks and Recreation and Port Human Services have teamed together to bring New Bern's inaugural battle of the bands Sept. 22. Specifically highlighting teen bands, musicians, singers and other performers, the festival will be held on the ground of the Twin Rivers YMCA.

Additional details will be announced soon, stay connected on Facebook, <http://www.facebook.com/nbbattleofthebands>.

Operation Ball Gown Accepting Dresses

Gently used gowns are being accepted for "Operation Ball Gown" scheduled for Sept. 28. Drop-off locations are Marine Corps Family Team Building and the Whistle Stop Thrift Shop aboard the air station, and Intimate Bridal in Morehead City.

For more information, call 466-4637.

► AMTRAK Service Reaches Havelock

Amtrak will establish two new bus service routes to Eastern North Carolina, one serving the communities of Greenville, New Bern, Havelock and Morehead City, and a second serving Goldsboro, Kinston, Jacksonville and Wilmington. Both routes will connect with the Amtrak Palmetto train service at the Amtrak Station in Wilson, N.C., starting Oct. 3.

For more information, schedules or fares, call 800-USA-RAIL, or follow on <http://www.facebook.com/Amtrak> or <http://www.twitter.com/Amtrak>.

MumFest

The 32nd annual MumFest celebration is coming to the restored streets and waterfront of historic downtown New Bern, N.C., Oct. 13 – 14. New this year: model car show and the Indy Tour exhibit, the Sea Fair floating art gallery and New Bern's own version of "Dancing with the Stars."

For More information, call Swiss Bear at 638-5781 or visit the <http://mumfest.com> website.

Tours of Cedar Grove Cemetery

The Craven Chapter of Questers International and the New Bern Historical Society will provide tours of Cedar Grove Cemetery through November.

Tours offer glimpses into the lives of more than two centuries of New Bernians.

Tickets are \$10 and can be purchased at the New Bern Historical Society, Monday through Friday, 9:30 a.m. – 4:30 p.m. or at the gate prior to the tour.

All tours begin at 4 p.m.

- Sept. 8, 15, 22, 29
- Oct. 6, 13, 20, 27
- Nov. 3, 10, 17, 24

For more information, call 635-1374.

Education Fairs

The Cherry Point Education office will be hosting monthly Career and Education Fairs, for authorized air station patrons.

Fairs are held from 10 a.m. – 2 p.m. at the Jerry Marvel Training and Education building, room 171b.

The next fairs are as follows:

- Sept. 28
- Oct. 19
- Nov. 30

For more information or to find out about next month's meeting call, Dana Bayliss, at 466-2046.

NASCAR INSIDER

By RICK MINTER / Universal Uclick

Denny Hamlin, driver of the No. 11 Toyota, races ahead of Jeff Gordon, driver of the No. 24 Chevrolet, during the NASCAR Sprint Cup Series AdvoCare 500 at Atlanta Motor Speedway on Sunday. (NASCAR photo)

First 20 years

Gordon marks two decades of Cup and earlier racing

Jeff Gordon was born in Vallejo, Calif., then moved with his family as a teenager to Pittsboro, Ind., to pursue his racing career. But it was down South where Gordon had some of the milestone events of his racing career.

Most everyone who follows auto racing knows that it was at Atlanta Motor Speedway 20 years ago that Gordon made his first start in the series now known as Sprint Cup. That was in the 1992 Hooters 500, Richard Petty's last as a driver and one that saw a dramatic end to the championship battle, as Alan Kulwicki finished second in the race but beat race winner Bill Elliott for the title because he led one more lap, and those bonus points for leading the most laps were the difference in the championship.

Many also know that it was at Atlanta where Gordon got his first major NASCAR victory, earlier in 1992 in the series now known as Nationwide. He also got his first-ever top-five finish in NASCAR at a small short track north of Atlanta, Lanier Raceway in Braselton, Ga., in a race for the series now known as Nationwide.

Before that, he made his first start in a sprint car at a dirt track near Jacksonville, Fla., and really got going in sprint cars in the 1985 Winter Nationals at East Bay Raceway near Tampa.

Gordon said his first sprint car start wasn't an indication of what his racing future held.

"It went terrible," he said. Then he traveled across Florida to East Bay, another track where 15-year-old drivers like he was at that time were allowed to compete.

"It was a track very capable of us getting good laps and getting my feet wet in the sprint car," he said. "By the last night we were moving along pretty good."

And that's impressive given the fact that

Jeff Gordon visits the Georgia Aquarium while in Atlanta for Sunday's AdvoCare 500. (NASCAR photo)

the starting fields included sprint car legends like Dave Blaney, Doug Wolfgang, Jack Hewitt, Steve Kinser and Kelly Kinser, although Gordon said he wasn't really focusing on them at the time.

"I was a long way from competing with them," he said.

By the time he joined NASCAR's Busch Series, now known as Nationwide, he had become a much better driver.

He said his first NASCAR win, at Atlanta in a Baby Ruth-sponsored Ford, wasn't an upset by any means.

"It was my second year driving for Bill Davis," he said. "We came off a year where we ran good but were missing a little something. But we came out guns loaded in '92. We had some new power and a new body style."

"We came into Atlanta and just flew. It was an incredible day. We were fast in practice, sat on the pole."

But that race was no cakewalk, even though he led 103 of 197 laps.

"We had Mark Martin, Dale Earnhardt, Bill

Elliott, a bunch of heavy hitters in that race, not to mention the Nationwide or Busch Series guys."

And Gordon had several issues to overcome, including running out of fuel at one point.

"We had to come from behind to get back to the front," he said.

Gordon also has fond memories of his days running at Lanier, a 3/8-mile oval track across Ga. Highway 53 from Road Atlanta.

It was at Lanier in 1991 that he got his first top-five finish in NASCAR.

He started third and ran second to David Green.

"We were in a pretty heated battle with David for Rookie of the Year," Gordon said.

"He got a win, and we didn't."

"He had us covered that night at Lanier."

Then in 1992, he dominated the early portions of the Lanier race, leading the first 177 laps from the pole before being derailed by a mechanical issue.

"I remember that race very specifically," he said. "We started on the pole, were very fast and were leading and had a problem with the bolt that holds on the air cleaner."

The stud that held the air cleaner to the carburetor broke off and caused Gordon's throttle to begin sticking. He made a pit stop and his team removed the air cleaner and sent him back on the track. NASCAR officials did not approve of the stop-gap measure.

"They penalized me and made me come back in and fix it," Gordon said.

Bobby Labonte wound up winning, while Gordon recovered to finish 10th.

"I always liked Lanier," Gordon said. "I raced there one time in a Midget and ran good."

Atlanta's big track also has been good to Gordon. He's won there five times and finished second in the most recent race.

NOTEBOOK**Ty Dillon wins a family victory**

For years, it was a common sight in the NASCAR garages across America to see team owner Richard Childress escorting his grandsons Austin and Ty Dillon around the tracks.

Even in the heat of battles on the track and when his input was needed in practice sessions, Childress always took time to make sure his grandsons were safely down from atop a hauler and out of harm's way before he proceeded to his duties with the race team.

When the boys started racing, Childress was there, offering support, but not pushing them other than to make sure they showed class and manners when dealing with fans and other members of the racing community.

On Friday at Atlanta Motor Speedway, the Dillons and Childress got to celebrate Ty's first major NASCAR triumph. The Camping World Truck Series rookie beat veteran Kyle Busch to win the Grit Chips 200 at Atlanta Motor Speedway.

Childress, along with Dillon's father, Mike, joined the race winner in his post-race press conference.

Dillon and Childress were drivers themselves in the beginning before moving to behind-the-scenes roles in the sport. Neither ever won a major race, something that Ty and his brother Austin now have done. Austin Dillon, now a rookie in the Nationwide Series, has one Nationwide win, and four in the truck series.

Dillon said seeing his youngest son score his breakthrough victory was a special moment for him.

"You want to get them out there and give them everything it takes to do it," Dillon said. "And then when they accomplish it, it's hard to put into words."

"It's like a kid getting up there to hit a ball on their first time at bat, you just want them to make contact ... and he hit it out of the park."

Childress, who fields the vehicles driven by his grandsons as well as the Sprint Cup cars driven by Kevin Harvick, Jeff Burton and Paul Menard, said what his grandsons have become outside their cars means as much or more to him as the wins on the track.

"What makes me proud of both of them is they're both really good young men," he said. "They came up in the sport when they were little kids running around the track. You didn't think they were paying much attention, just playing and having fun like kids. But they were really watching – watching what Dale Earnhardt did and how he carried himself and how he had the respect of the sport."

"That's the way they are and to the fans, and I'm really proud of what they've accomplished."

Dillon said he liked the way his son went about getting his truck tuned for the winning run. He consulted with fellow driver Max Papis and then talked to Harvick, who has won races in all three major NASCAR divisions. Ty Dillon said Harvick's advice was spot on.

Mike Dillon was simply pleased that his son took that approach to setting up his truck.

"I'm more proud of that than him winning the race," Mike Dillon said.

Chase field all but set after Atlanta race

With one race left to run in the 26-race regular season, the field is already mostly set for the 10-race Chase for the Sprint Cup.

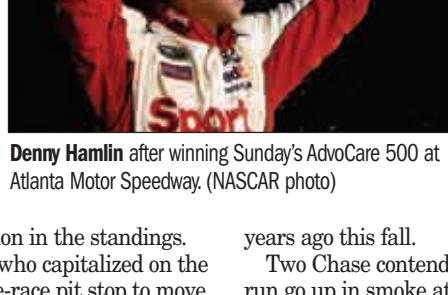

The finish of the AdvoCare 500 at Atlanta Motor Speedway locked in the top 10 drivers in the standings, leaving only the two wild card slots to be decided Saturday night at Richmond International Raceway. Only two drivers, Atlanta runner-up Jeff Gordon, and Kyle Busch, have realistic chances to take the one spot that is truly up for grabs. Kasey Kahne holds one of the two wild card slots with his two race victories and 11th-place position in the standings.

Atlanta winner Denny Hamlin, who capitalized on the quick work of his pit crew on a late-race pit stop to move from third place to first for the final restart, now has four wins on the season and will at least be tied for the lead when the points are reset to start the 10-race championship-deciding Chase.

He also appears to be on a roll as the Chase begins. His win in the AdvoCare 500 was his second straight on the Cup circuit, and he's headed to his home track, Richmond International Raceway, where he's one of the dominant drivers.

"That's my track," he said. "It's my best track, arguably, and I just think we have a lot of momentum now, and for what it's worth, I will try to take advantage of it."

At Atlanta he led seven times for a race-high 105 laps, but he appeared to be destined to lose to Martin Truex Jr., who had a big lead as the laps wound down. But

Jamie McMurray's crash on lap 321 and the ensuing caution flag sent the leaders to pit road, where Hamlin's crew essentially won the race for him.

Gordon, who passed Truex for second place and made a run at Hamlin, was second-guessing himself afterward for not being more aggressive with a race win and a Chase berth on the line.

He said he should have run into Hamlin and moved him out of the way.

"I guess I'm getting soft in my old age," said Gordon, who made his first Cup start at AMS 20

years ago this fall.

Two Chase contenders likely saw their hopes for a title run go up in smoke at Atlanta.

Carl Edwards blew an engine on Lap 264, bringing out a caution flag and derailing his fading Chase hopes. On the restart following Edwards' blown engine, Jimmie Johnson, Sam Hornish Jr. and Ryan Newman wrecked on the backstretch, effectively putting Newman out of the running.

Edwards, who tied eventual champion Tony Stewart in points last year but lost the title on the tie breaker of race wins, is experiencing the kind of slump that has become the norm for the driver who finishes second the year before.

"Somebody is trying to teach me something here," Edwards said. "I've been trying to live right and do the right things, so I hope there's a reason for all of this, but, man, it's just so frustrating."

SPRINT CUP POINTS**1. Greg Biffle**

879; Leader

2. Dale Earnhardt Jr.

871; behind -8

3. Matt Kenseth

858; behind -21

4. Jimmie Johnson

848; behind -31

5. Martin Truex Jr.

838; behind -41

6. Brad Keselowski

831; behind -48

7. Denny Hamlin

822; behind -57

8. Clint Bowyer

811; behind -68

9. Kevin Harvick

807; behind -72

10. Tony Stewart

769; behind -110
