

Academic Degree & Certification Reimbursement Program: This program is open to all APF employees and provided funding for obtaining a college degree or professional license/certification relating to your career field. Individuals simply need to fill out an application prior to starting their coursework and speak with a member of the TSD staff to start the process. The process is slightly different for Degrees and Certifications; the employee has some paperwork to complete, provides receipts and is reimbursed at the end of the course or completion of certification provided they meet all the eligibility criteria and grade requirements. If you are interested in this program contact the Training Support Department office today!
