MARINE CORPS ORDER 5110.5D W/CH 1

From: Commandant of the Marine Corps  
To: Distribution List

Subj: OFFICIAL MAIL ADDRESS LISTING FOR MARINE CORPS COMMANDS

Ref: (a) DoD Manual 4525.8M Official Mail Manual  
(b) USPS DMM Domestic Mail Manual

Encl: (1) Military Mail Addressing Standards  
(2) Official Mail Address Listing

1. Purpose. To provide an official mail address listing of Marine Corps commands and publish, per reference (a) and (b), military mail addressing standards which are to be used in the preparation of official correspondence for entry into the United States Postal Service (USPS) System.

2. Cancellation. MCO 5110.5C.

3. Background

a. The Department of Defense Military Postal Service Agency (DoD MPSA) and USPS co-sponsored the ZIP Code Alignment and the Address Standardization Programs which grouped APO/FPO numbers geographically throughout the world and standardized military mailing addresses to meet the USPS's automated mail processing objectives.

b. Automation of the USPS's mail processing created the need for specific address formats and address hygiene requirements.

c. The ZIP Code Alignment, the Address Standardization, and USPS automated mail processing resulted in changed military addresses, established address formats, and identified address hygiene requirements. These actions allow military mail to be processed by USPS automated sorting equipment; thereby eliminating manual sorting, speeding process time, and subjecting military mail to potential discount mailings.

DISTRIBUTION STATEMENT A: Approved for public release;  
distribution is unlimited.

4. Action

a. Personnel preparing official correspondence for entry into the USPS mail system will:

- (1) Follow mail address standards in enclosure (1).
- (2) Use addresses listed in enclosure (2).

b. Commanding officers will:

(1) Notify the following of official mail address changes:

(a) Headquarters Marine Corps (ARDE) via Marine Corps Publications Distribution System (MCPDS) entry.

(b) Marine Corps Total Force System (MCTFS) via unit diary entry.

(c) Commander, MCLB Albany, Georgia (Code G 317), Department of Defense Activity Address Directory (DoDAAD) via message or standard naval letter.

(d) Chief of Naval Operations (N09B22), Standard Naval Distribution List (SNDL) by standard naval letter.

(e) All command members.

(2) Update stationary and letterhead.

c. Installation postal officers will:

(1) Coordinate with USPS when establishing official mail addresses to ensure USPS standards are met.

(2) Issue command addresses/changes.

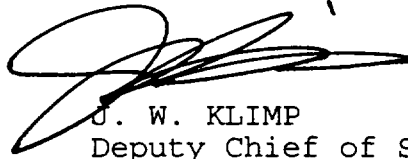

(3) Maintain current address listing.

(4) Submit address change information to CMC (MRP-3) annually.

(5) Submit address change information annually, during the month of July, to the servicing USPS Address Information Management Section for entry into the USPS National Zip Code Manual.

d. CMC (MRP-3) will:

- (1) Maintain this Order.
- (2) Update address information annually.

MILITARY MAIL ADDRESSING STANDARDS

1. To ensure the most efficient delivery of mail, a correctly formatted current mailing address must be used. The following mail addressing standards are required on all official mail prepared for mailing:

a. Use complete official mailing address (including the nine digit ZIP code) in both the **return address** and the **delivery address**.

b. Print or type addresses. Return/delivery addresses will be typewritten or machine printed in black ink using **UPPER CASE LETTERS**. Address characters must not touch and will be equally spaced. The preferred print size for address characters is 10 to 12 points. Handwritten and rubber stamped addressing are not authorized except for activities engaged in field exercises or hostilities that prevent following these standards. Also, the attention line may contain handwritten characters to identify a specific section, code, or person.

c. Punctuation may be included in official addresses, however, the preferred format is without punctuation, except for the hyphen separating the four digit add-on from the five digit zip code.

d. Use the correct address format. Official mailing addresses (both delivery and return) are limited to five lines and formatted with a uniform left margin. The attention line is an optional line which may be used when the name of the activity does not adequately identify addressees or if the correspondence is directed to a specific person or section. Whenever possible, a person's title/billet will be used vice a person's name. This prevents official mail intended for the command from being forwarded to the person after he/she transfers to a new command.

2. The following is a sample address format:
