

* **POWER STRIPS & DAISY CHAINS** *

Look around your workspace; are your appliances plugged directly into the wall? Do you have multiple power strips “daisy chained” together creating a potential electrical fire hazard?

COMMON HAZARD IDENTIFIED ON OUR INSTALLATION!

Power strips are designed for use (manufacture's recommendations) with several low powered loads, such as computers, peripherals, or audio/video components. **Educate your personnel of the potential hazards associated with the improper use of power strips and electrical equipment!****

Listed or labeled equipment shall be installed and used in accordance with any instructions included in the listing or labeling.
