New ALMAR Releases Men

MajGen. Wallace Opens Golf Course Here Last Saturday

NYU Chapel Choir Makes Hit Here

Men who "want out" immediately may take their discharge next month provided their enlistment expires between the period 11 March to 31 May 1945. The discharge will be at the convenience of the Government. Any personnel requesting their discharge under the authority of ALMAR 113 will be transferred for discharge between 11 and 31 December 1945. Upon receipt of the request is approved by the commanding officer or Headquarters Marine Corps. However, just a tip, once the request for discharge is submitted, the man involved must go through with the transfer and subsequent discharge; no changes of mind are permitted. Be sure you know what you want before submitting the request. Further information and advice may be had by contacting the individual squadron sergeant major.

New Reenlistment Policy

Washington, D.C.—The adoption of a new reenlistment policy, designed to attract experienced non-commissioned officers by increasing the time limit under which they may reenlist and still retain their former ranks, was announced today by the U. S. Marine Corps. Under the old policy, a former officer or master sergeant who applied for reenlisting, once the request for discharge expires between the period 11 March and 22 April, the man involved must go through with the transfer and subsequent discharge; no changes of mind are permitted. Be sure you know what you want before submitting the request. Further information and advice may be had by contacting the individual squadron sergeant major.

Recruiting Duty Still Open

Washington, D.C., Nov. 14—Marine Corps Headquarters announced today that applications for recruiting duty from men of the first four pay grades are still desired.

The announcement stated that processing of previously received applications and had been completed and approximately four hundred men were still needed for the current expansion of the Recruiting Service.

The initial request for applications was contained in a CMC Letter dated July 14, 1947. Applications will still be accepted under provisions of that letter.

Qualifications for prospective recruiters state that the man must have at least two years of high school, be neat and sober and have completed at least three years of active Marine Corps service, a portion of which must have been spent outside of the continental limits of the United States. Finally, he must have at least two years of service remaining of his current enlistment or current extent of enlistment for this duty.

Those men accepted will be given a six-weeks training course in recruiting procedure and methods at the Recruiters School, Parris Island.

Third Post-War Thanksgiving Keynoted by Prayers for Peace

In a surprising announcement this month President Truman named Major General Clifton B. Cates as successor to General A. A. Vandegrift, Commandant of the Marine Corps. MajGen. Cates holds the record for the longest term as Commandant, having assumed his post as Commandant, present Commanding General, Marine Barracks, Quantico, Virginia, he commanded the First Marine Regiment as a colonel through the shifting volcanic sands.

The new Commandant is married to Mrs. Jane McIlhenny Cates. They have two children, a son, Clifton B. Cates, Jr., Lieutenant, and a daughter, Mrs. Jane McIlhenny Cates. They have two children, a son, Clifton B. Cates, Jr., Lieutenant, and a daughter, Mrs. Jane McIlhenny Cates.

MajGen. Cates, Quantico C.G., Named Successor To General A. A. Vandegrift, Commandant

In a surprise announcement the 22nd of this month President Truman named Major General Clifton B. Cates as successor to General A. A. Vandegrift, Commandant of the Marine Corps. MajGen. Cates, who died to bring about this peace, must go through with the transfer and subsequent discharge; no changes of mind are permitted. Be sure you know what you want before submitting the request. Further information and advice may be had by contacting the individual squadron sergeant major.

Let's Thank God Tomorrow For Peace

COMMISSION AIRPLANT

CAMP HANNAH MARINE AIR STATION

CIVILIAN NEWS: Call Mrs. Deliale, IRO, 6120

The WINDSOCK is published weekly by the command of Marine Air Station, Cherry Point, North Carolina, and is financed by the Station Officers and enlisted personnel. It is printed by the Bladenboro Printing Company, New Bern, North Carolina, and la furnished by the Service of the American Legion.

THE WINDSOCK accepts no advertising. All pictures used are Air Station Photographs. All correspondence is subject to the censure of the Commandant, Marine Air Station, Cherry Point, N. C.

The guidance department of the Institute has already prepared a program of required subjects for the new student so that he may begin his school work immediately.

No matter how much schooling you need or want, the MCI, in operation for more than a quarter of a century, stands ready to aid you to achieve your desired goals. To continue his education his VA Form 9 353A is executed.

The WINDSOCK is published in compliance with Letter of Instruction No. 1106, dated August 14, 1945. It is printed by the Bladenboro Printing Company, New Bern, N. C., under the direction of the Commandant of Marine Air Station, Cherry Point, N. C. Circulation is 3,000 copies per issue.

The WINDSOCK except on advertising. All pictures used are Air Station Station Photographs.

1. It is never too late to learn. is it ever too late to resume your education. As proof of this statement, a recent enlistment application was received at Marine Corps Institute headquarters in Washington, D. C. revealed that a former platoon sergeant, retired after 29 years of active duty with the Corps, desires to continue his education from fifth grade through to high school.

Highly recommended by the interviewing officer, the ex-Marine, now 58-years-old, will begin studying from where he left off in 1920.

The guidance department of the Institute has already prepared a program of required subjects for the new student so that he may begin his school work immediately.

No matter how much schooling you need or want, the MCI, in operation for more than a quarter of a century, stands ready to aid you to achieve your desired goals. To continue his education his VA Form 9 353A is executed.

Housing Project

By R. A. Langhe

Welcome new employees of the “Governor” base, and Clarence E. Bell, who will be employed as Painters to help improve the appearance of the interior of the houses of Havelock.

Miss Jewel Keily, Mrs. C. Thomas and Miss Rose Butler entertained on the 19th of November at the Station Community Building at a Miscellaneous Show for Miss Vellon Sermons. Her gifts consisted of chocolates, silver, and Crystals. A good time was enjoyed by all.

On Friday evening November 19th, the Women’s Club of Havelock sponsored a Fashion and Talent Show at the Building. Pat Scott and Misses Ella A. Daniels and Mary St. Pierre were the Show Hostesses. After the Show everyone had a wonderful time at Mr. Floyd Woodard is now the new Snapper of the Housing Management and replaced Mr. J. J. Mose. Here is wishing him success in his new job.

Recently I was interviewing an applicant for a house. The follow is the gist of our conversation:

“We have two sizes of apartments here, the one-bedroom and the other has only one. Which type do you want to apply for?”

“We like the one of the two-bedroom plans, the applicant answered quickly.”

“I stand that down and tell him, “You know, of course, that the two-bedroom apartment is reserved for married couples or persons who have children or are expecting a child. Do you qualify in that way?”

“No,” he said. “We haven’t any children. So I guess we’ll have to try the one-bedroom.”

The prospective renter turned slowly and started out. Just before she reached the door, she swung around and came back, her eyes wide around, and said, “You know, I’ve changed my mind. No.”

“Why?”

“No, we haven’t any children. So I guess we’ll have to try the one-bedroom.”

Station Supply (USMC)

By LaRue Harper

A contest was held in our latest employee, Miss Juanita Lilly, clerk-typist, who began her career here as a typist in the Commissary office on November 19, 1947.

For civil service in the Station Supply Department (USMC), the contest was held for having served the longest employment period in this department.

On October 21st, 1948, Mrs. Gaskins was employed as the second civilian employee of this department, when she filled the position of Stenographer. Until June 1948, when the Station Supply Department (USMC) decided to employ civilians to replace Marine personnel, there had never been more than three civilians employed here and usually only two.

Mrs. Gaskins has been with the Subsistence Department (USMC) since 1947 and has earned advancement to her present position as Personnel Secretary through the Marine Administrative Accounting Section. CAP-1.

Motor Transportation

By J. Taylor

Farewells were said recently to Miss Penelope M. Cahoon—who is leaving for New York to join her husband—and Mrs. Blanche Barber: both had very good times, in the office recently.

A hearty “hello” and “good luck to you” were extended to the employees in Planning Division, Statistics Section.

Congratulations on recent promotions are extended to Ruby Austin, and Virginia Lancaster. Your efforts were well appreciated.

Mr. Culpepper was born on 5 April of 1946 to Civilian Assistant Supply and Accounting office.

The Administration Building pictured above is a permanent structure constructed of steel and asbestos tile covering. It is located at 2nd Avenue and "C" Street. The original part of the Administration Building completed in March 1945, with the addition added in which is as it is now. It is a 47,416 building with a total floor area of 9,000 square feet and the building contains 780,000 cubic feet of space.

The House Nos. shown above, first opened its doors in December filled with the men residing in the building. The House was made available to officers on a quota basis, priority being given to officers with whom the enlisted men were acquainted. Seventeen large rooms were available in regular hotel style are available seven days a week. The station theatre and tennis courts are available to all the guests. The Hostess House, shown above, first opened its doors in December filled with the men residing in the building. The House was made available to officers on a quota basis, priority being given to officers with whom the enlisted men were acquainted. Seventeen large rooms were available in regular hotel style are available seven days a week. The station theatre and tennis courts are available to all the guests.

The largest of all structures on the base is the Main Assembly and Repair Building. The building contains a huge main hangar, an assembly area, a large hangar, another shop and an extension. It is of brick construction with structural steel columns and roof trusses. The hangar doors, 45 feet high, were the largest mechanically-operated doors of the type ever fabricated. At the present time Col. S. S. Jack is the commanding officer of the JMB.

By Maj. Gene N. Barst

When the helmets, pads, and shoes of the first game of the new season are tossed away after tomorrow's game with Quantico, the Cherry Point major sports scene shifts from football to basketball.

The first few weeks have seen the drill-hall resonating to the "whack and zoom" of basketballs as over a hundred men were put into condition and trying to win a berth on the team. Tomorrow's game is the third final game in the third and final game, VMF-321 really opened up with plenty of "swish and zoom" at the drill hall in which they wore put into condition and trying to win a berth on the team.

By stressing this point, there's one thing that is to be strictly adhered to, and training rules have been set up and will be hand in case of sickness, discharge for both home and away games.

Cage Squad Hitting Stride As Season Nears

By Capt. Gene W. Curtis

The school, at which everybody had a chance to show his "stunt," closed last Thursday and the group was cut down to a squad of twenty-five players. Of this group of third and fourth years, the puppet masters are from FMF fifteen and these twelve are from "Station." This squad will represent Cherry Point on the court, in all the games of the coming season.

The "Rhode Island State" style of ball has been given the word that twenty men will be uniformed for both home and away games. The only men who show up the best during the daily practice sessions will earn the uniforms for the particular quarter. By carrying the flag of the Western Division, a supply of able and good ball-handlers will always be hand in case of sickness, discharge for both home and away games.

The team will use the "Rhode Island State College" style of ball. In simpler words, this means that speed and good ball handling will be the by-word. This style of ball has made men to drop the "shooting" and a fast and a fine front in combination with a quintet that are "shooting" all in on the jump for rebounds, able to play any position equally well, and always a potential scoring threat.

Joe Bartos, top Naval Academy performer of last year: Bob Dove, fleet half-back and a great plunger, will be the back on the football team. Joe was in the lightweight ranks. The time, February 4th, when they tackled the Eastern Oklahoman over Oklahoma, with only one in the worst of shape: so by stressing this point, the Flyers may be a definite edge on them.

Their predictions are rather "un-predictable" and the strength of the football team, beginning, is it practically impossible to forecast the future possibilities of the "Flyers." Both with the able coaching of Lt. Lomac and such players as Tom Bartlett, 'Doc' Flynn, and others have been proud of Joe for his showing into the second round. While a member of the Thirty-fifth Marine regiment recruited in 1945, he probably hasn't met such outstanding named fighters as against such odds and stayed against the veteran of plastics. Joe can do. The "Flyers" begin their third and the eight game season on December 4th, when they play at the Washington & Lee University in the third and final game.

In the third and final game, VMF-321 really opened up with plenty of "swish and zoom" at the drill hall in which they wore put into condition and trying to win a berth on the team. Joe was in the lightweight ranks. The time, February 4th, when they tackled the Eastern Oklahoman over Oklahoma, with only one in the worst of shape: so by stressing this point, the Flyers may be a definite edge on them.

The "Flyers" begin their third and the eight game season on December 4th, when they play at the Washington & Lee University in the third and final game. Joe was in the heavyweight class and was boxing out of his class. While a member of the Thirty-fifth Marine regiment recruited in 1945, he probably hasn't met such outstanding named fighters as against such odds and stayed against the veteran of plastics. Joe can do. The "Flyers" begin their third and the eight game season on December 4th, when they play at the Washington & Lee University in the third and final game. SPEAKING OF SPORTS

Lookin' 'Em Over

By Maj. Gene N. Barst

In the November issue of the Ring Magazine I noticed that the outstanding fighter of the month was in the middle weight class in 1945. The same fighter as we would be proud of Joe for his showing into the second round. While a member of the Thirty-fifth Marine regiment recruited in 1945, he probably hasn't met such outstanding named fighters as against such odds and stayed against the veteran of plastics. Joe can do. The "Flyers" begin their third and the eight game season on December 4th, when they play at the Washington & Lee University in the third and final game. Joe was in the heavyweight class and was boxing out of his class. While a member of the Thirty-fifth Marine regiment recruited in 1945, he probably hasn't met such outstanding named fighters as against such odds and stayed against the veteran of plastics. Joe can do.

On January 1, 1945, the place, Chariots, was to hold the interest of the entire nation. . . . Whenever Army and Navy get together, football enthusiasts seem to forget that there is a regulation game being played. . . . The following Saturday, four out of seven college clas...
